The school is committed to providing students with a diversified learning environment, so that students can develop in a balanced attitude in moral, intellectual, physical, social and aesthetic education, and become young people who love the country and Hong Kong, and have excellent character and learning. In addition, the school attaches great importance to nurturing students' civic consciousness and enabling them to have a sound personality to establish a correct outlook on life and values, and is dedicated to maintaining close ties and cooperation with families and communities to empower students to grow up healthily.

學校致力為學生提供多元化的學習環境，使學生在德、智、體、群、美五育均衡發展，成為愛國愛港、品學兼優的青年。此外，學校特別重視培育學生的公民意識，使之有健全的人格，以建立正確的人生觀及價值觀，並致力與家庭、社區保持緊密的聯繫與合作，使學生健康成長。

MESSAGE FROM THE PRINCIPAL

Since its founding in 1946, Heung To Middle School has upheld the educational mission of "Patriotism, Democracy, and Progress," dedicating itself to nurturing a new generation with national identity, scientific spirit, and international perspective. For over eighty years, we have maintained a strong foundation for student growth through a commitment to patriotic education, a caring campus environment, and a pursuit of academic excellence.

We firmly practice patriotic education and instill a sense of national pride. Since October 1, 1949, Heung To Middle School has proudly displayed the five-star red flag, clearly defining our educational mission: to cultivate a profound recognition of Chinese identity among our students. Each year, we organize exchanges with mainland China, drawing on outstanding teaching practices and integrating them into our school, allowing students to genuinely experience national development and foster a sense of pride and belonging.

We are committed to building an inclusive and caring campus culture. Heung To is not just a place of learning; it is a community that feels like family. We continue our long-standing "Peer Learning Groups" and "Home Visit System," fostering partnerships between teachers and parents to support student growth. As our school song, "Song of Heung To," beautifully expresses: "Heung To is like a big family, where teachers and students are as close as siblings." We value every student's challenges and needs, embodying the spirit of "those in distress shall receive help and compassion."

We strive for solid and outstanding academic performance. The school has developed its own curriculum for Chinese, English, and Mathematics at the junior secondary level, tailoring our teaching to individual needs, while emphasizing assessment and feedback to ensure effective learning. As a result, over seventy percent of our students progress to university degree programs each year. We implement differentiated instruction and diverse support mechanisms, truly realizing the goal of "broad access and high achievement," helping every student discover their potential and progress steadily.

As someone who has experienced the fourteen-year educational journey from Heung To Kindergarten to Secondary School, I have witnessed and practiced our educational philosophy: only in an environment of unity, love, trust, and inclusivity can teaching and learning truly flourish. Heung To Middle School will continue to uphold tradition while progressing with the times, cultivating the next generation for society with "Chinese spirit, Hong Kong sentiment, and international perspective."

校長的話

香島中學自 1946 年創校以來，始終秉持「愛國、民主、進步」的教育宗旨，致力培育具備民族認同、科學精神與國際視野的新一代。八十年來，我們堅持以愛國教育為根，以關愛校園為本，以學術卓越為志，為學生奠定堅實的成長基礎。

我們堅定踐行愛國教育，傳承家國情懷。自 1949 年 10 月 1 日起，香島中學便高懸五星紅旗，明確教育使命 — 培養學生對中國人身份的深刻認同。我們每年組織師生前往內地交流，借鑒優秀教學經驗，融入校本實踐，讓同學真切感受國家發展，建立民族自豪感與歸屬感。

我們致力建設關懷共融的校園文化。香島不僅是學習場所，更是一個親如家庭的社群。我們傳承建校即推行的「學習互助組」與「家訪制度」，教師與家長建立夥伴關係，共同陪伴學生成長。正如校歌《香島之歌》所唱：「香島像一個大家庭，師生親愛如姊妹弟兄」，我們重視每一位學生的疑難與需要，實踐「誰有疾苦，誰將獲得幫助同情」的育人精神。

我們追求紮實而卓越的學術表現。學校自主編寫初中中、英、數校本課程，因材施教，重視教學評估與反饋，確保學習效能，所以每年均有逾七成同學升讀大學學位課程。我們推行分流教學及多元輔導機制，真正實現「普進高出」，助每位學生發掘潛能、穩步向上。

作為香島幼稚園至高中十四年教育歷程的親歷者，我見證並實踐著香島的教育信念：唯有在團結互愛、互信共融的環境中，教學相長才能真正開花結果。香島中學將繼續秉持傳統，與時並進，為社會培育具備「中國靈魂、香港情懷、國際視野」的下一代。

CONFIDENCE THROUGH IMMERSION AND DISCOVERY

School-based curriculum and integral teaching approach

Our theme-based teaching modules incorporate diverse tasks and activities to dynamically address the evolving needs of both junior and senior students. For senior forms, we tailor extended reading booklets that explore contemporary social developments and pressing global challenges, ensuring students' engagement with real-world contexts.

Small classes

- **Elite classes**

In addition to small-class teaching in junior forms (5 groups per form), elite classes in senior forms offer high-achieving students more opportunities to enhance their English proficiency through challenging teaching materials and advanced learning tasks. As a result, achieving Level 5 or above in the HKDSE has become more attainable for a greater number of students.

- **S6 oral practice**

After-class tutorial groups are arranged daily for Form 6 students in a 1:4 teacher-student ratio, allowing teachers to provide personalized guidance to each student in preparation for HKDSE.

English learning environment

Comprehensive English immersion extends beyond classrooms through annual musical productions, cultural events (Halloween/Christmas/Easter), dramatic performances, English student hosts, digital media projects and English Week - all carefully designed to accelerate language acquisition in authentic contexts.

English newsletter - Heung To Express

This year-round project engages junior and senior students in authentic journalism experiences - researching stories, crafting articles, refining edits, and designing layouts. The ongoing creative endeavor under teachers' supervision yields tangible results that reinforce English competence while fostering pride in their published works.

S6 English oral practice for exam success.

NET-led learning activities during English Week.

Spreading New Year joy by writing couplets.

Learning through fun English performances.

Sharing Chinese cultural activities with our NET.

路漫漫其修遠兮
吾將上下而求索

香島中學中文科教學的實踐

香島中學中文科的優勢在於合作無間，老師們勇於探索，樂於分享，
教學盡心盡力。在師生的共同努力下，於 2026 年文憑考試，
摘星率達 12.3%（全港 4.7%），優良率達 64.4%（全港 33.4%），成績優秀。

團隊合作，教學相長

我們的團隊目標一致，重視教研和資源共享，每學期均組織觀課評課，還經常遠赴內地考察參觀，既促進交流，也提升教學效能。我校曾舉辦過兩次面向全港中文老師的教學研討會和公開課，得到參與老師的一致好評。

校本課程，重視基礎

我校採用校本課程，重視基礎，增加閱讀量和文言文，以配套的同步練習鞏固所學；自編的《基礎練習》、《文言文啟蒙》、《積累與感興》，也為提高學生的語文知識和閱讀能力打下堅實基礎。校本教材更具針對性和靈活性，老師集編、教於一身，熟悉教材，教學自然更得心應手。

誦讀經典，積學儲寶

我校全面推行課前朗讀，中文課總是由琅琅書聲開始，涉獵篇章從古到今，從詩到文，聲入心通，積學儲寶。

活動多元，注重傳統

中文科的活動豐富，初中有「語文大激鬥」，以活潑生動的方式促進學生學好語言和文化；「文化劇場」把京崑、川劇、書法藝術等傳統文化引入校園，讓同學們在輕鬆有趣的氛圍中產生對中國傳統文化的興趣。「聲演好書」則以朗讀、影像等多媒體方式呈現文章的優美意境。

針對考試，照顧差異

為提高公開試成績，我們積極參與閱卷工作，積累經驗，掌握考試要求，細心分析各項數據，對考試方向及應試策略進行仔細研究，務求能「揚長補短」，提高學生成績。針對文憑試，我們更實行分組教學，拔尖提中，充分照顧學習差異，激發學生的學習動機。考試前夕，老師會安排學生進行複習測驗，使學生保持最良好的「作戰」狀態。

內地考察交流，鑽研教學心得

全港公開課堂，引領專業發展

傳統藝術表演，薰陶文化素養

WHERE THERE IS MATH, THERE IS BEAUTY
哪裏有數哪裏就有美

School-Based Curriculum and Mathematical Activities at Heung To School-Based Curriculum: Two Decades of Innovation and Growth
香島的校本課程和數學活動

As a pioneer in Hong Kong education, Heung To's Mathematics Panel embarked on developing our school-based curriculum twenty years ago, aiming to rid constraints from traditional textbooks. Challenging though, this initiative ensures our learning materials perfectly align with our students' needs, while allowing teachers to continuously refine their pedagogy and elevate their professional expertise.

Our materials feature an innovative **"guided design"** in which examples are strategically left unsolved, encouraging students to actively map out problem-solving steps and pro-actively build note-taking habits. At the same time, well-explained solutions facilitate after-school revision. Paired with follow-up application exercises, this approach empowers students to put knowledge into practice and truly deepen their understanding.

Tiered Support: Tailoring Education to Unleash Potential

To cater to the needs of students at different learning stages, our school has established a systematic after-school support framework that provides tailored and individualized learning guidance.

Junior Secondary

- The **"Skill Building Practice (SBP)"** foundational training program is designed to pave a solid path for future senior secondary transitions.

Senior Secondary

- A tiered teaching strategy is implemented. Elite classes focus on nurturing gifted students, while our reputable "Star-Achievers" classes adopt a **one-on-one individualized mentorship mode**l to provide targeted guidance and appropriate support for highly potential students.

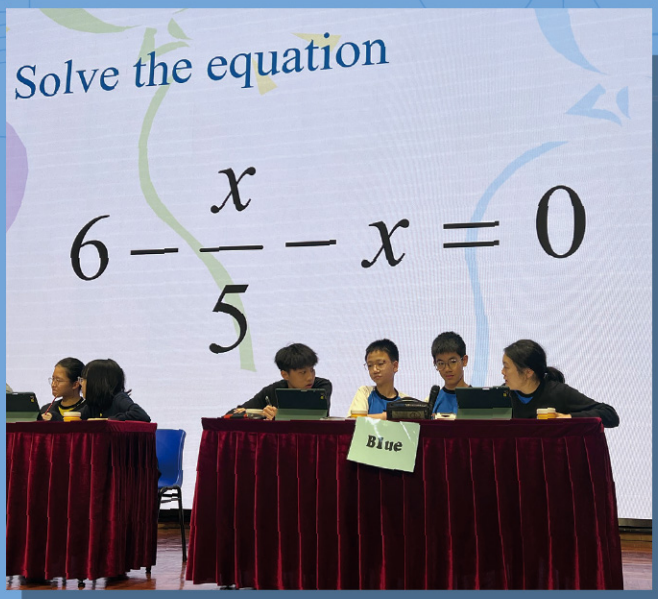

Math Activities: Joyful Learning that Sparks Bright Minds

We creatively integrate mathematics with games to craft a unique **"Edutainment"** learning model. Through our **"Day W Math Interest Class,"** students engage in intellectual games like the Rubik's Cube and Huarong Road, developing sharp logical thinking in a relaxing and joyful atmosphere.

Furthermore, our school-based curriculum features regular "Take the Challenge" tied to a reward points system. Students can earn Commendation Cards, bonus quiz marks, or even redeem exciting mathematical toys based on their performance. Quarter evaluations alongside annual Gold, Silver, and Bronze awards help sustain strong learning motivation.

External Competitions: Chasing Excellence and Achieving Glory

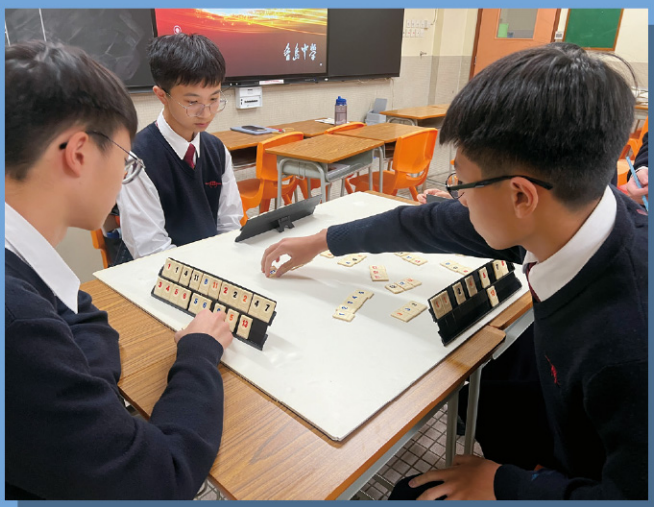

Our school actively organizes and encourages students to participate in high-level external mathematical competitions, yielding outstanding results among various prestigious events. Most notably, in the highly competitive **Hong Kong Mathematics Olympiad (HKMO)**, Heung To has managed to advance to the finals for consecutive years, bringing home numerous accolades. These achievements stand as a testament to our students' immense mathematical potential and rock-solid academic foundation.

CAREER PLANNING AMBITION AS THE RUDDER
生涯規劃 志向為舵

Led by experienced teachers, the Careers and Life Planning Team designs school-based career programmes tailored to students' needs. These include career planning class periods, workshops, and major activities to help bring clarity to students' career pathways.

The **S4 Corporate Visits** and **S5 Lead-to-Fly Camp** are fully led by careers teachers and university alumni. These activities provide a platform for students to form meaningful mentorships with alumni and gain valuable insights into their future aspirations.

The **S6 Life Planning Scheme** creates an **Individual Career Profile** for every student, assisting them with JUPAS programme choices, Student Learning Profiles (SLP) and personal statements. It also provides support with non-JUPAS applications and course selections, as well as applications and recommendations for further studies in Mainland China, Taiwan and overseas.

Throughout this journey, teachers guide students in understanding themselves, navigating options and trade-offs, and ultimately charting their own course in life.

LEARN THROUGH FUN, WIDENING HORIZONS — S4 OLE LESSONS

寓學於樂　拓闊眼界 ——— 中四 OLE 活動課

To enrich the campus life of S4 students, two weekly Other Learning Experiences (OLE) Lessons have been specially arranged. Balancing fun with depth, these activities focus on developing talent, cultivating character, and broadening students' horizons.

The curriculum spans a wide range of fields, from STEAM activities to a cappella singing, and from chess to Chinese dance. In a relaxed and enjoyable atmosphere, students can unlock their potential while strengthening their teamwork and creativity. Through these experiences, they not only enjoy a more fulfilling school life but also build rich and unforgettable senior secondary memories together.

ROOTED IN HONG KONG, EMBRACING THE NATION, AND LOOKING TOWARDS THE WORLD

立足香港・胸懷祖國・放眼世界

Heung To Middle School upholds the educational philosophy of "Maintaining Tradition and Embracing Innovation," dedicated to providing students with diverse learning and exchange opportunities. Our activities encompass academic exploration, cultural immersion and innovative practices, covering themes such as STEAM research, historical studies, ecological sustainability, and artistic collaboration.

Through exploring in educational institutions, enterprises, and natural environments both domestically and internationally, students have broadened their global perspectives while cultivating cross-cultural communication skills and teamwork spirit. Every program is meticulously designed to ensure academic rigor, enabling students to evolve into future leaders with global competitiveness through immersive learning experiences.

ATHLETIC EXCELLENCE, TALENT DEVELOPMENT
體育競技 育才成林

Heung To Middle School has achieved outstanding success in sports, garnering numerous awards and taking pride in nurturing diverse talents. For over 80 years, we have steadfastly upheld the belief that every student can shine in sports.

There are currently 12 sports teams in our school, namely athletics, cross-country, swimming, basketball, football, volleyball, table tennis, badminton, bowling, indoor rowing, jump rope, and fencing, addressing a wide range of interests. Notably, our boys' and girls' cross-country teams and the boys' table tennis team have won group championships and advanced to higher divisions. Additionally, our girls' basketball team, boys' swimming team, athletics team, girls' bowling team, and indoor rowing team have also achieved remarkable success.

VIENNA MUSIC STUDY TOUR
維也納音樂遊學團

In the summer of 2025, our Musical Lead Singers, together with our Musical Dancer Team, embarked on an eight-day journey of music and arts exchange to the music capital, Vienna. Our teams previously triumphed as dual champions in both the IYMMC International Young Musicians Music Competition 2025 Hong Kong Preliminary (Secondary School Division) and the IYMMC International Young Dancers Music Competition 2025 (Open Division). Following this success, we represented Hong Kong in the Vienna Final, standing out among 17 international teams to secure the first runner-up position.

During our stay in Vienna, the teams presented a street performance at Heldenplatz, receiving widespread acclaim. Additionally, we were honoured with an invitation from the Chinese Embassy in Austria to perform at the reception celebrating the 98th Anniversary of the founding of Chinese People's Liberation Army, earning high praise for our talent.

ENCOUNTERING THE WORLD FRENCH CULTURE AND ARTS STUDY TOUR
走出課室，與世界相遇
法國文化藝術遊學團

In the summer of 2026, 25 students, led by teachers, travelled to Paris for an eight-day cultural and arts exchange. The journey focused on learning through real encounters with authentic masterworks — from the classical grandeur of the Louvre and the curved light and shadow at the Musée de l'Orangerie, to the Musée Picasso and Monet's Garden. Standing right within reach of these masterpieces left a profound impression on the students.

Visual Arts students transformed Paris into a creative canvas. They sketched outdoors under the shade of Jardin du Luxembourg, captured light and inspiration through photography and video, and brought their own works to the front of the Louvre for a "flash exhibition", showcasing the confidence and artistic vitality of Hong Kong youth — truly learning through practice.
